General Walters:

For concluding remarks to US Army Special Research Detachment, OTR Program Officer, [redacted] said that the basic group is involved in general intelligence studies, some are interested in ground force capabilities and others in special general operational research.

STAT

She suggests you talk to them about where the Agency is headed. No one has talked to them about the Intelligence Community and she suggests you touch upon that and the role of the DCI in the IC. They would welcome any comments you can make on the possible reorganization as result of investigations, anything you can say about Mr. Bush. Anything on the DCI's goals for the IC. A sort of overview and reassurance.

STAT

[redacted] will come at 3:25 to escort you to 1E78 where you will address the group.

Nancy
