FBIS 46 -- for the East Germans (broadcast in German language)

In a broadcast item commenting on Vice President Johnson's visit, the East Berlin radio commented:

"In order to calm down the West Germans at the same time (the time of Johnson's visit), the White House yesterday announced a symbolic reinforcement of the Berlin garrison with a few U.S. units."

CIA interprets this as an East German reaction tending to minimize the movement of the troops and reinforces the idea that the movement will be unopposed.
