PHOTOGRAPHIC INTERPRETATION REPORT

USSR RAIL LINE SEARCH FOR ICBM ACTIVITY ON MISSION 1004

Handle Via TALENT - KEYHOLE Control Only

WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER
USSR RAIL LINE SEARCH FOR ICBM ACTIVITY
ON MISSION 1004

This report presents the results of a search for ICBM activity along rail lines in the USSR on KEYHOLE photography from Mission 1004 (February 1964). Seven previous reports gave the results of earlier rail searches from KEYHOLE (August 1960) through (December 1963) and explained the standards used. These reports had graphics supplements consisting of overlays keyed to World Aeronautical Charts (WACs) which showed the rail lines searched with negative results and indicated the location of all ICBM launch complexes identified to date. The applicable KEYHOLE mission and pass number on which the rail lines were covered were indicated on the overlays.

A total of 52 WAC overlays were required to indicate the information derived from a search of KEYHOLE Mission 1004, and are included in the Graphics Supplement to this report.* In accordance with established criteria, 24,363 nautical miles of Soviet rail lines were searched for ICBM activity on KEYHOLE Mission 1004 with negative results.

*Copies of the Graphics Supplement have been forwarded to the CIA requester and to the TALENT Control Officers of Army, Navy, Air Force, DIA, and NSA. Further reproduction and dissemination of these overlays to subordinate commands will be the responsibility of these agencies.
